

Quality policy

Law Castings performs manufacturing of castings, impeller castings and Anodes from samples, drawings and customer supplied patterns, including the manufacture of the patterns and machining of castings.

At Law Castings, consistently satisfying customer requirements and meeting or exceed customer expectations is part of the business.

This is achieved through:

- Performance excellence by consistently manufacturing castings of the highest quality
- Achievement of zero customer rejects and 100% on time delivery performance
- Maintaining highly skilled and competent staff
- Setting objectives and monitoring performance

Strategies include:

- Maintaining a strong commitment for continuous improvement
- Ensure casting inspections are performed for every production run
- Obtaining certification to ISO9001 to ensure a high level of system compliance is maintained.
