Occupational health safety and environment policy

Law Castings performs manufacturing of castings, impeller castings and Anodes from samples, drawings and customer supplied patterns, including the manufacture of the patterns and machining of castings.

At Law Castings, a management commitment to occupational health, safety and the environment is part of the business.

This is achieved through:

- Complying with applicable statutory requirements, codes, standards and guidelines;
- Setting up objectives and targets with the aim of eliminating work related incidents in relation to our activities, products and services; and
- Defining roles and responsibilities for occupational health, safety and environment.

Strategies include:

- Ensuring occupational health, safety and environment management principles are included in all organisational planning activities;
- Providing ongoing training to all of our employees;
- Protection of the environment and prevention of pollution
- Consulting with employees and other parties to improve decision-making on occupational health, safety and environment matters;
- Ensuring incidents are investigated and lessons are learnt within the organisation;
- Distributing occupational health, safety and environment information, including this policy, to all employees and interested parties;
- Providing enough resources to ensure occupational health, safety and environment is a central part of the organisation; and
- Ensuring effective injury management and rehabilitation is provided to all employees.
- Obtain Environmental certification to IS014001 and Health & Safety certification ISO45001 to ensure a high level of compliance is maintained.
- Continual improvement of our safety & environmental management system.
